

Best UI: YouTube

Why YouTube's UI is Best:

1. **Clean and Focused Layout:**

YouTube's interface is simple and easy to understand. The main focus stays on the videos, not on extra buttons or ads.

2. **Smooth Navigation:**

The sidebar, search bar, and video suggestions are well organized, helping users find what they want quickly.

3. **Responsive Design:**

Works perfectly on all screen sizes — phone, tablet, or computer — with automatic resizing and optimization.

4. **Dark Mode & Accessibility:**

Dark mode reduces eye strain, and features like captions, subtitles, and playback speed help all kinds of users.

5. **Personalized Recommendations:**

YouTube's algorithm shows videos based on user interests, making the experience personal and enjoyable.
